Challenge Name: Trap House

Category: OSINT

Description:

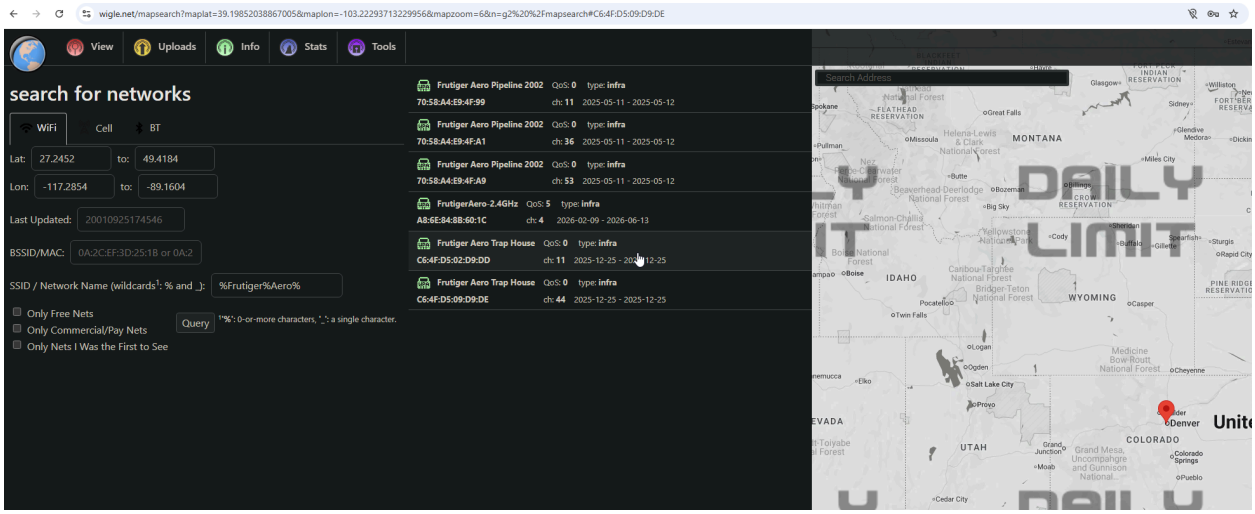

Picture the Frutiger Aero era: dolphins, bubbles, and that Vista-era shine. Now imagine that aesthetic moved into a trap house. Someone in the states did, and their router won't stop announcing it. What city is this house located in?

Hint(s):

None

Walkthrough:

This challenge hints that the router's SSID name is related to frutiger aero and trap house. One site to view such information is WiGLE (Wireless Geographic Logging Engine).

Doing a wide search for a network with "Frutiger Aero" somewhere in the name reveals a few networks in the US. The only one relating to a trap house is located in Denver CO.
